Cavite State University - Naic Campus
Bachelor of Science in Information Technology, September 2021 - Present

Skills

HTML, CSS, JavaScript, PHP, MySQL

Projects

TICKITA: Support Ticketing Management System with Task Tracking and Satisfaction Feedback (Capstone Project)

TICKITA is a web-based assistance Ticketing Management System designed to streamline user support procedures. It allows organizations to handle, track, and resolve support tickets, track job progress, and collect user satisfaction data. As part of our Capstone Project, I conducted extensive research on ticket management systems, user needs, and industry standards, and documented the system's architecture, features, and user manuals for ease of use.

Personal Portfolio (Personal Project)

The Personal Portfolio Website is a self-designed, interactive platform that showcases about me, my skills, my projects, my experience and my accomplishments. The website serves as a digital representation of my personal brand and provides potential employers, clients, or collaborators with an overview of my expertise and work.
